## **MINUTES FOR DECEMBER CONTRACTOR SAFETY MEETING February 04, 2010**

- John Lindsay (Jacobs FOSC Safety)
  - Presentation on Silica in Construction.
- Daryl Kosturock (Bastion Technologies Safety)
  - Presentation on January 2010 construction safety findings, close calls and mishaps.
  - Presented the revised version of the SSC Construction Safety website and demonstrated several of the publications and forms on the site.
- Questions and answer session.
  - There was one question in reference to the First Aid\CPR requirements on site and where to get the training. The answer is that under 29 CFR 1926.50, in the absence of a clinic, hospital or physician... a person trained in First Aid\CPR shall be on site. SSC does have a clinic but it is not open around the clock. Several contractors start work before the clinic opens or on weekends therefore, shall have a person trained in First Aid\CPR. SSC offers this training once a month. Any contractor that is interested in the training shall contact Daryl Kosturock.
